

December 2016

Dear Friends:

In keeping with our long-standing annual tradition of offering help this time of year, we have made donations to several charities that supply life-sustaining food to members of our community that would otherwise do without.

We are supporting The Maryland Food Bank and the Community Crisis Center because each delivers essential food and services to those unfortunate members of our community who cannot provide for themselves. These donations, along with many others, allow them to experience some of the joy that the holidays are supposed to bring.

We are also pleased to support the V Foundation, a charitable organization that seeks to make a difference by generating broad-based support for cancer research and by creating an urgent awareness of the importance of the war against cancer. Thanks to its endowment, 100% of cash donations benefit cancer research.

We are grateful for the opportunity to work with or represent you and, now beginning our 48th year of providing legal services to individuals and businesses, we eagerly look forward to continuing our relationship in 2017 and beyond.

Best wishes to you and your families for a wonderful holiday season and a healthy and prosperous New Year!

With warm regards,

**The Attorneys and Staff of
